FluxFrame.
Fast, flexible, on-brand.

WHY IT WORKS

Flux means change, speed and flow. Frame means video, design and content. Short, modern, memorable, and not tied to any tech label.

TAGLINE

“Short-form content, engineered for attention.”

Also test: One idea. A week of content.
Scroll-stopping content, done for you.

MISSION

Make small brands look big online with fast, consistent, on-brand short-form content.

Before you commit: check domain, social handles and trademark.

POSITIONING

For founders and small teams who need consistent social content without a full in-house team, FluxFrame is the done-for-you content studio that turns one idea into a week of reels, posts, decks, captions and subtitles.

Fast, clear, human.

Short sentences. No jargon. No hype. We sound like a sharp teammate, not a tech demo.

WORDS WE USE

fast, on-brand, consistent, done-for-you, repurpose, scroll-stopping, simple, system

WORDS WE SKIP

AI-powered, artificial intelligence, robot imagery, brain / chip cliches

VOICE IN ACTION

Instead of:

“We leverage cutting-edge solutions to optimise your engagement.”

Write:

“One idea in. A week of content out. Fast, on-brand, done.”

SHORT BIO (Instagram, TikTok, X)

Short-form content that stops the scroll. Reels, decks, captions & subtitles, done for you. Book a content audit.

LONG BIO (website, Facebook)

FluxFrame is a social content studio for founders and small teams. We plan, produce and repurpose short videos, carousels, presentations, captions and subtitles so you can stay visible without the busywork. One idea in. A week of content out.

LINKEDIN BIO

FluxFrame helps brands turn ideas into consistent short-form content: reels, posts, decks, captions and subtitles. Done-for-you content systems for busy teams.

04

A simpler logo.
Two frames. One gap.

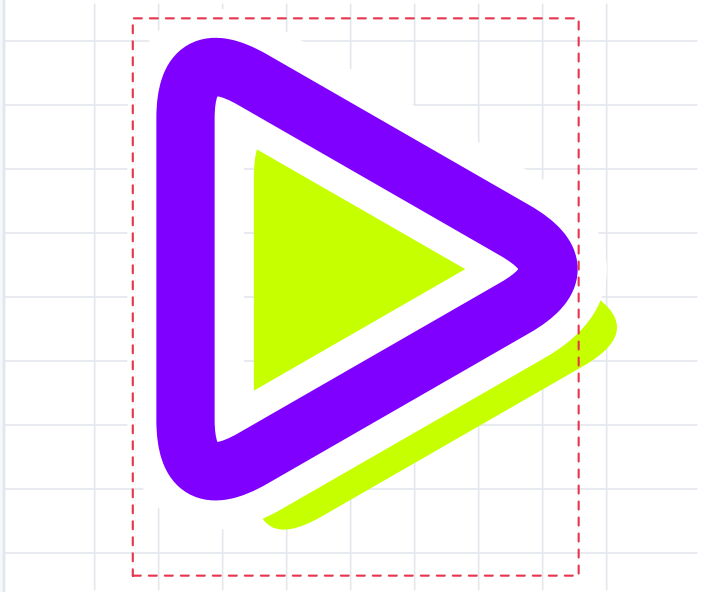

WHAT CHANGED

- **2 shapes, 2 colors**
  The old tangled loops are now one violet frame and one lime frame. Nothing else.
- **Reads at 16 px**
  Thick strokes and rounded corners survive favicons, avatars and phone screens.
- **Print and embroider friendly**
  Flat colors, no 3D shadow, no gradients. Works on cards, shirts and signs.
- **Still a play button**
  Frame = the video frame. Offset = flux, the motion. No robots, brains or circuits.

05

Built on a simple grid.

ICON CONSTRUCTION

Frame stroke = 1 unit. Gap = 1 unit. The lime frame sits 1 unit down and right of the violet frame. Corner radius = 1.5 units.

CLEAR SPACE

FluxFrame

Keep space = height of the letter F

MINIMUM SIZES

64 px 40 px 24 px 16 px

RULES OF THUMB

- Icon alone: favicon, avatar, watermark, video end card.
- Horizontal lockup: default. Min width 90 px / 25 mm.
- Stacked lockup: square spaces and merch. Min 64 px / 18 mm.
- Wordmark only: footers, invoices, email.

WHICH TILE?

Ink tile on lime or light backgrounds. White tile on violet. Round crop for Instagram, LinkedIn and X: keep the icon inside the middle 70%.
Favicon: icon only, no tile, on transparent background.

07

Please do not.

Do not stretch or squash

Do not recolor

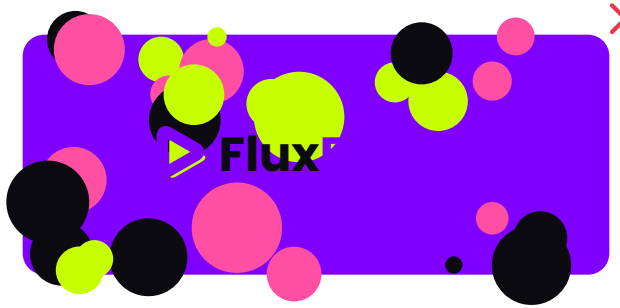

Do not rotate

Do not add shadows or effects

Do not use white-on-lime or low contrast

Do not place on busy backgrounds

High contrast.
Bold type. Simple frames.
